

AUTHENTICALLY BRITISH.
ABSOLUTELY
INTERNATIONAL.

As the horizon of men's lifestyle broadens and limits blur the demand for new experiences becomes more visible and man demands new garments to correspond with a new style of life.

Inspired by our heritage and the beauty of the sport of Polo this collection presents a hybrid of Polo and urban. This 2020 collection is where luxe meets protection, smooth and fluid shapes tune in with geometrical angular shapes.

Tradition and urban balance well with each other and function and design come through in everyday staples, and where water resistant, breathable, UV and odour resistant fabrics become the norm.

OUTERWEAR

This season we fully embrace all that makes Hurlingham Polo original and unique.

2020 outerwear is where liquid gloss meets matt, urban meets tradition, powerful meets feather weight and technical finishes perfectly compliment each other offering protection from the elements.

Not only as singular pieces but also as layered double jackets the outerwear program creates a beautiful ensemble when combined with the rest of the collection and offers all weather protection. The collection focuses on four key colour packages which all work together to provide a strong hybrid brand message.

We concentrate on not only modern lifestyle, but the pioneering spirit of our heritage. We have worked hard to upgrade fabrics, fits and finishes. Our outerwear collection reinforces the personality of Hurlingham Polo and showcases the very best products for the new season ahead.

KNIT

Tradition meets luxury, we pride ourselves with the cashmere finish touch of our knits. In 2020 we have our go to staples in extra soft yarns adding colour and lux to any wardrobe.

Our knitwear styles encompass the tradition of Polo from a British traditional herringbone stitch found at the neck and a half garter stitch at the body to intarsia graphics and vents.

All of our knits are machine washable offering easy care.

SWEATS

Most of the sweat collection is made with interlock dry brushed jersey knitted fabrics in a compact extra-fine yarn. The fabric is also completed with a dry short brush finish giving this fabric a meilleur du luxe feel.

Fluid meets angular, where shapes inspired from the horse and the saddle are found at the shoulders mixed with technical, minimal and angular details and pockets creating a hybrid uber modern look.

POLO

Our DNA derives from the sport of Polo being part of our life and heritage since 1875. We pride our selves on pushing the boundaries in yarn innovation, creativity and design.

This season we have added UV and odour resistant finishes to our technical fabrics and we have improved the yarn construction and quality for comfort and feel. Inspired by fluid shapes of the horses and saddles combined with urban architecture surrounding our daily life we have created hybrid designs where both worlds connect in perfect harmony.
